Local Control and Accountability Plan (LCAP)
Parent Advisory Committee 2016-17

Summary
The State of California’s education funding model, called the Local Control Funding Formula (LCFF), allows districts more freedom in how funds are spent but also requires the development of a Local Control and Accountability Plan (LCAP) that links spending to specific district goals for student achievement. Districts are held accountable to the specific ways in which they are spending money and how those decisions are improving student outcomes.

A key aspect of the LCAP process is the engagement of parents/guardians, including those representing foster, low-income, and English learner students in providing input and feedback. This is facilitated through the formation of a Parent Advisory Committee (PAC). The LCAP PAC will meet to review the sections of the LCAP and provide input into the monitoring and revision of the LCAP. The focus will be on discussing actions that are aligned to state and local priorities to increase student academic achievement and performance. An emphasis will be on meeting annual goals for all students, including foster, low income, and English learners. CUSD has a strong record of parent/guardian engagement and is excited to continue its partnership with parents and guardians to guide the district’s actions for the coming years.
