Capistrano Home/Virtual School
Enrolling K-8 Students

» Web-based Curriculum Option «

The elementary online program provides instruction, videos and workbooks for the students as the parent takes on the role of “coach” guiding them through weekly online and offline activities. The middle school program is entirely web-based and students can access their courses throughout the week around their schedules.

» Textbook-based Curriculum Option «

Parents are provided with all the CUSD textbooks and materials needed to teach their students at home, in addition to great digital resources to supplement their lessons. A monthly curriculum map guides parents in planning their instruction, with flexibility to tailor the program to their child’s needs.

» Classroom-based Curriculum Option at CUSD School of Residence «

Middle school students can take up to two classes at their neighborhood school. Elementary students can participate in art and music classes at their neighborhood school, depending on availability.

» Credentialed Teachers «

Families are partnered with highly-qualified and experienced CUSD teachers who support students and parents throughout the program. Teachers are available in person, online and by phone.

» Workshops, Excursions and Other Activities «

Optional workshops for all grades are available on campus every week and family excursions are offered each month. Our PTA schedules fun activities at the school and in the community throughout the year so that students have additional opportunities to interact with peers and teachers.

Parent & Student Information Meeting Dates

Wednesday, November 30, 2016
at 6:00 p.m.
Capistrano Home & Virtual School
32972 Calle Perfecto
