WE NEED YOU! CUSD CONTINUES TO INCREASE ACCOUNTABILITY AND OVERSIGHT URGES PUBLIC PARTICIPATION

SAN JUAN CAPISTRANO-The Capistrano Unified School District is inviting community members to apply to serve on the Strategic Plan Taskforce Advisory Committee.

The Strategic Plan Taskforce Advisory Committee will be composed of representatives from all stakeholders including parents, students, teachers, support staff, and administrators. This advisory group will participate in up to three collaborative sessions over the next four months. Meeting dates will be determined after the committee is formed.

The primary goal of the Taskforce Advisory Committee is to use the results of the Fiscal Crisis and Management Team (FCMAT) Special Education Review to advise district staff on creating a structured outline that ensures all students have a continuum of services with quality supports, resources and access to district academic and behavioral programs in the least restrictive environment, placing emphasis on maximizing opportunities for students with special needs to learn with general education peers.

Applications are being accepted through February 8, 2017 and can be found on our website at http://capousd-ca.schoolloop.com/committees.
